1. How do you evaluate the credibility of information found online? *

- ( ) Check multiple sources before trusting
- (•) Trust well-known websites only
- ( ) Rely on social media shares
- ( ) Do not verify information

2. How well do you understand permissions requested by mobile apps? *

- (•) Fully understand and control them
- ( ) Partially understand
- ( ) Usually ignore
- ( ) Do not understand at all

3. How do you decide which apps to install on your device? *

- (•) Check reviews, ratings, and permissions
- ( ) Install popular apps only
- ( ) Install based on recommendations
- ( ) Install without checking

Complete the function $solveMeFirst$ to compute the sum of two integers.

Example

$a = 7$

$b = 3$

Return 10.

Function Description

Complete the $solveMeFirst$ function with the following parameters:

- $int\ a$: the first value
- $int\ b$: the second value

Returns

- int: the sum of a and b

Constraints

$1 \leq a, b \leq 1000$

Sample Input

```
a = 2
b = 3
```

Sample Output

```
5
```

Change Theme Language Python 3

```python

def solveMeFirst(a,b):
    # Hint: Type return a+b below
    return a+b

num1 = int(input())
num2 = int(input())
res = solveMeFirst(num1,num2)
print(res)

```

Line: 5 Col: 15
